**SCHOOL FINANCE MEMORANDUM 99-079**

**TO:** School Districts and Charter Schools  
**FROM:** Marcie Celaya  
**DATE:** 05/26/99  
**SUBJECT:** Delrep version 2.1 notes

This memorandum contains notes on issues related to Delrep 2.1 installation and use.

Delrep can be installed from a CD-Rom. The CD-ROMs contain a folder with files corresponding to each diskette as well as a single directory containing all the files. If you have a computer that does not have a CD Rom, you might want to create a set of disks. The folders corresponding to diskettes are intended **only** to give you a means to create a set of installation diskettes for Delrep 2.1.

If you are using a version of Delrep 2.1 with a dated of 04/20/99, in the About Delrep dialog on the Utilities menu, you will receive the following error when you preview or print the archive table report for a year-end enrollment.

This error can be corrected by installing the update, which will be dated 05/20/99 in the About Delrep dialog on the Utilities menu. You can download the update from our website. If you are unable to access the website, you can request an update disk from Maggie Singler or me.

For assistance in downloading or installing Delrep 2.1, please contact your Regional Training Center staff. If you have a question concerning a particular data submission with Delrep 2.1, please contact Maggie Singler (542-8243) or myself (542-8797) in the School Finance unit.
